Subject: PCBs: Aspire Public School 1009 66th Avenue, Oakland, California - EPA R9 Approval Cap Modification
Attachments: 01_06_2015_76161c App_Aspire Cap Modification_.pdf

Hello Tim:

Happy New Year.

Attached is EPA Region 9's approval of the plans submitted by ARCADIS on behalf of Aspire Public Schools for modification of the existing cap at the Aspire School located at 1009 66th Avenue, Oakland, California. Please call me or have Erica call me if you or her have any questions concerning the attached approval.

I look forward to a site visit in the very near future.

Thank you for your courtesies and patience.

Sincerely,
Carmen

Hi Erica:

Happy New Year!

Good news, the letter is being sign by our Division Director. I should be able to send the signed letter via email message this afternoon. Continue with your plans, still leave the soil sampling toward the end of your scheduled work at Aspire.

Thank you for your courtesies and patience.

Sincerely,
Carmen

Hi Carmen,

Happy New Year! I hope you had a nice holiday and that everything is well with you! I was wondering if you think that the cap modification approval will be issued soon. We are nearly finished with the portion of the field work that is being conducted under a work plan with Alameda County and we hope to conduct the soil sampling in support of the cap modification plan later today and tomorrow. However, we are waiting for approval from USEPA before we proceed.

We look forward to hearing from you.

Sincerely,
Erica

Greetings Tim:

Thank you for taking the time to participate in the productive call we had this morning.

Regarding the soil characterization before modifying the cap, I just wanted to include here a few points we touch on earlier today:

Aspire can begin coordination of field activities.

Aspire can begin soil characterization sampling immediately upon receipt of EPA's risk based approval for cap modification. My plan is to have an approval issued by COB January 6, 2015.

Based on the above, I recommend conducting the soil characterization as the last step of the field work that Aspire plans to perform during the week of January 5, 2015.

Thank you for your courtesies and enjoy a safe Holiday Season.

Sincerely,
Carmen
